Management Computer Services

RE: Internet Programmer

Dear Hiring Manager,

While viewing job ads online, I came across your request for an Internet Programmer. I am very interested in this position.

I am a dedicated, hard worker skilled in problem solving and time management. I work well with others, but I can also take initiative and get things done on my own. I catch on quickly and work hard to continuously expand my skill set. Just a few on my abilities include:

- .NET and MS SQL Server databases
- Understanding of Object-Oriented programming
- Communicating with team members

I am certain that I will be a great addition to your Company.

For more details about my background, please review my enclosed resume. Within the resume is a link to the video demo of a Bug Tracker I built using .NET and MS SQL. I believe that I am the Internet Programmer you are looking for and welcome the opportunity to speak with you at your earliest convenience.

Kind regards,  
Whitney Kugel
